

Dosing machine for fibres

For the dosing of short-cut fibres

Fig.: Dosing machine for fibres F-4R/400

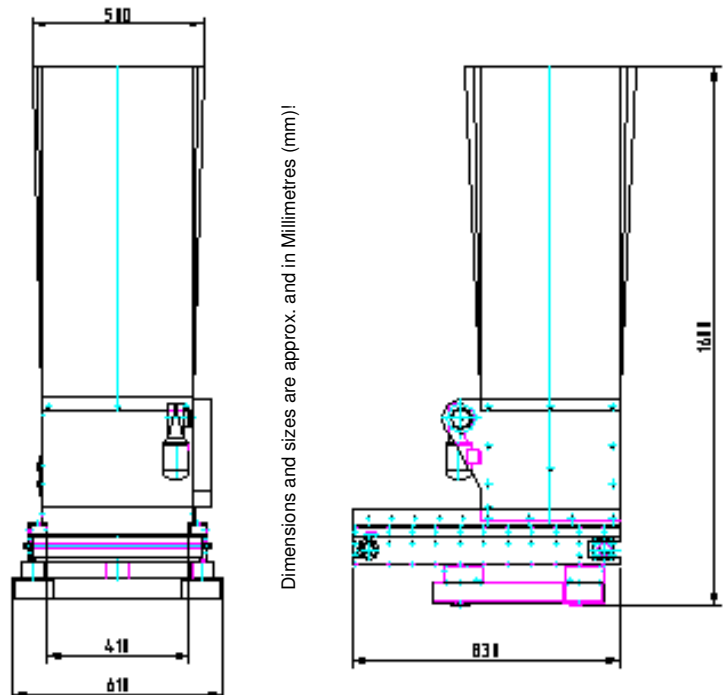

Fig.: Dosing machine for fibres F-4R/400

Dosing machine for fibres F-4R/400

Technical details:

volume of container	approx. 220 l
expandable in steps of	100 l
weighing range	0,2-10 kg (changeable)
classification of the weighing scale	10 g
operating voltage	230/400 V
motor	0,25 kW
dosing height basic unit	1600 mm
additional height per expansion	+ 500 mm
total length	830 mm
total width	620 mm
weight	approx. 160 kg

- synthetic fibres
- glass fibres
- natural fibres

Fig.: Control system dosing machine

Length of the fibres between 6-30 mm
(we also test other fibres on our machine)

Other designs on request – from a mobile dosing unit to stationary dosing machine – we always supply customized solutions

Subject to change without prior notice!
